

CODE OF ETHICS

Each Professional Employee is expected to uphold the teachings of the Catholic Church and to conduct himself/herself in accordance with Catholic morality.

The Diocese of Harrisburg has adopted the "Code of Ethics for the Catholic School Teacher," developed by the National Catholic Educational Association, as the norm for elementary and secondary Professional Employees in the Diocese of Harrisburg.

Each Professional Employee is expected to adhere to this "concise description of the person who is growing in faith, hope, and love of Christ." The Code "specifies the attitude and the practice of the Catholic school teacher in relation to the student, the parent, the community, and to the profession. This code offers a guide by which to live, a goal toward which to strive and a promise of lasting success."

Policy
