

**BUSINESS**

**SCHOOL LUNCH PROGRAM**

In schools, where at least some students remain at school for lunch, supervision of the lunch room and student activities must be provided.

The Principal is responsible to direct and supervise the cafeteria staff and to provide adequate staff supervision in the eating area.

Wherever possible, schools are encouraged to avail themselves of the Federal School Lunch Program. Students who are eligible may be able to benefit from the free or reduced lunches provided from federal funds. Parents/guardians will determine whether their children will avail themselves of the lunch program or carry a lunch.
