

**ADMISSION OF TRANSFER STUDENTS**

A Catholic student who wishes to transfer to a Catholic elementary or secondary school from a public school should have the approval of his/her pastor.

A student, not of the Catholic faith, who desires to transfer to a Catholic elementary or secondary school from a public school, may be admitted if there is space available.

If the program which a particular Catholic school offers does not satisfy the special needs of the student or if there has been any previous record of a serious discipline problem or tuition delinquencies, etc., a student need not be accepted for admission.

A student who wishes to transfer to any diocesan Catholic school must present an academic record which indicates either the current grade level or the grade level of promotion. Such a student will be considered for grade level placement according to the competence indicated and judged by the Principal to be consonant with the local school program.

Policy
