

**Selection of Textbooks and Instructional Materials**

Textbooks and programs are reviewed and evaluated each year by the respective curriculum committees. Recommendations for approved textbooks are made by the curriculum committee to the Assistant Superintendent for Curriculum Development.

A list of Approved Programs and Texts is prepared each year by the Catholic Schools' Department and disseminated to the schools. From this list, principals with their faculties may select the program which best meets the needs of the students in the individual school. Program continuity is essential in the selection of textbooks. Consequently, it is expected that an entire series will be used in each curriculum area K-8.

Permission to use textbooks other than those approved by the Catholic Schools Department must be obtained directly from the Assistant Superintendent for Curriculum Development.

Policy  
Adopted: March 17, 1992

NCD/ Bishop of Harrisburg
