

## Seven ways to help our children *love* the Missions

### 1. Pray

for missionaries and mission children as a school and as a class.

### 5. Invite

missionaries into your school/religious education program for prayer services, Mass, or other programs— allow them to tell their stories.

### 2. Read

a missionary biographic to children — a captivating way to orient the mind and stir the imagination.

### 6. Research

different mission lands, customs, cultures and religious celebrations.

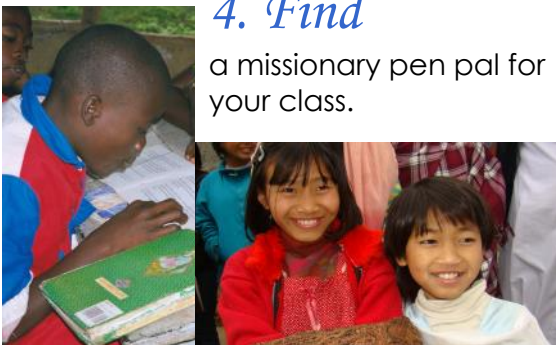

### 3. Draw

the whole school into supporting the missions financially.

### 4. Find

a missionary pen pal for your class.

### 7. Teach

children to be “universally Catholic” in their world perspective— aware of geography, history, and the plights/perspectives of people across the globe.
