

Jesus Loves You Activity

You'll need: a world map and 5 star-shaped stickers

1. Display or distribute a world map.. We have included a MCA map for you to use. This map is color coded for the world mission rosary.
2. Talk with the students about how missionaries are people who go to different countries and tell people that Jesus loves them. In many countries, people don't speak English, so missionaries must learn a new language so they can talk to the people.
3. Then teach kids five different ways to say "Jesus loves you"—and put a star on the map on a country where people speak that language.
